

November 19, 2020

Dear Industrial Partner,

Since 1996, Renewable Water Resources (ReWa) has held an Annual Compliance Awards Celebration in recognition of its Industrial Partners that have exhibited excellent environmental stewardship to the surrounding community. This year, due to concerns over COVID-19, ReWa has made the difficult decision to cancel the Compliance Awards Celebration. Instead, ReWa will be recognizing the 2019 Award Winners with personal deliveries of these awards. Please accept this award as appreciation for a job well done in keeping the Greater Greenville Area a productive and healthy place to live.

These awards are earned by Industrial Partners that have exhibited 100% compliance with Pretreatment Program requirements during 2019. This excellent history of compliance sets these Industrial Partners apart. You are valuable members of the Greater Greenville business community, as well as environmental champions. As Greenville continues to grow, your dedication along with ReWa's efforts will keep our natural resources protected.

Starting this year, the awards are separated into four levels of excellence based on 100% Compliance history. Also being recognized are those Industrial Partners that will be receiving the Environmental Stewardship Certificate for 2019:

BRONZE = 1 year 100% Continuous Compliance

SILVER = 3 years 100% Continuous Compliance

GOLD = 5 years 100% Continuous Compliance

PLATINUM = 10 years 100% Continuous Compliance

ENVIRONMENTAL STEWARDSHIP CERTIFICATE = Exemplary Stewardship

Attached is a list of the Award and Certificate Winners for 2019. Renewable Water Resources appreciates its Industrial Partners for their efforts in the areas of environmental and public health protection. Please note, ReWa looks forward to presenting next year's awards in person, at the 2021 Annual Compliance Awards Celebration.

"Well done is better than well said." **Benjamin Franklin**

Respectfully,

Renewable Water Resources

Patricia R. Dennis
Director of Regulatory Services

Lance K. Johnson
Pretreatment Programs Supervisor

Award Winners
